

APR 500

The recently launched APR500 was developed for installation on patient transfer vehicles and vans; the lifts are 'plug and play' allowing ease of installation and operation.

The XL-APR 500 incorporates the following features;

- Stretchers or Wheelchair lift up to 500kg capacity
- Suitable for internal installation
- Integrated interlocks
- Automatic bridge plate
- Automatic leading edge
- Simple and effective safety lock system
- PLC controlled for ease of diagnosis and maintenance
- Automatically operated safety rails
- Fully CE marked

All lift dimensions, features, control system and operations are customisable to suit customer requirements.
