The BBC range of platform lifts have been designed to make goods handling easy during the loading/ unloading of commercial vehicles. This range of double armed lifts can solve many lifting problems especially on vehicles where proper loading devices cannot be. The BBC lifts have a strong and stable in patterned aluminum. There are 2 versions of this type of platform lift.

TYPICAL VEHICLE INSTALLATIONS

Fiat Ducato, Iveco Daily, Vauxhall Vivaro, Ford Transit, Renault Master and many others

LIFT BBC	A	B	C	D	E	F	G
